REVEALING SMILE—A little girl's love for new family is universal, and the proof is in the smile of this young Korean orphan's face. The happy youngster is being fitted for a new sweater by Marine M'guy, Richard S. Graham of a Marine-sponsored orphanage in Korea. Clothing was donated by a woman's church auxiliary of Chascook, Va.

DROUGHT MAKES ITS BED—A sweet, dry, cracked pond is all that remains of little hills Harvey's "sisterhood" hole in Horton, Kan. Once the waters of Horton Lake lapped against the dock on which little peacefully stands, but that was before this summer's drought dried the crops, land and waters of the region.

IN PA'S FOOTSTEPS—Jean, 10, is proudly following in her father's footsteps. Jean, daughter of Jean, 20, stands on her head while tapping out the same steps that her father, Bruce, is doing. Mother Ivy is also part of the act, currently playing in London, England.

HOW HIGH THE RIFLE?—It's too chilly in New York for Bermuda shorts these days, so some of the boys are considering lifts as an antidote measure. But what's the proper length? One authority says a lift should be three inches from the floor when the wearer is kneeling. So here's killed and comely Janet Burrell checking the length of Trig Carter's rifle. Looking on is Louise Clifford, executive of a men's underwear firm who naturally is vitally concerned with what a footman wears under the lift.

TAKES OVER IMPORTANT POST—A man who got his first taste of aviation and international co-operation when he served as a U.S. Marine Corps flight pilot with the Royal Navy Air Arm in World War I, is the new United States representative on the Council of the International Civil Aviation Organization. Harold Armstrong Jones, a lawyer by profession, has taken over the important post, which carries with it the rank of minister, as the representative of the new U.S. Republican government.

BOY'S BEST FRIEND—There's true friendship in this hug that eleven-year-old John Biddle gave his dog Bessie when the two were reunited at St. Mel's school in Chicago, Ill. Johnny, a deaf mute, had previously been walking with his pet when a man drove up in a car, snatched the dog, and drove away with it.

HAPPY HALFBACK—New York Giant halfback Francis Clay of Pompey, Tex., hugs his bride, Giuseppe Halverson of San Antonio, Tex., following their marriage in New York City.

GUY AND DOLL—This loving couple is a pair of distracted dressmaker's dummies. They were among the many odds and ends on sale at the recent Paris Sale from Paris in France.

HOLD IT, DOC!—When the strain of the buzzing dentist's drill becomes too much for her young servant to bear, May Anderson, the 10-year-old patient of Dr. Fritz Linder, Stockholm dentist, can stop the drill just by lifting her hand (circle). Lifting her hand breaks electrical contact until she feels up to starting again.

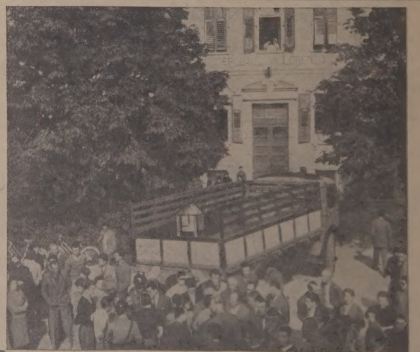

NEW CHANCELLOR INSTALLED—Dr. Samuel Beatty, right, chats with Dr. Hon. Vincent Massey, left, Governor General of Canada, and Dr. Sydney Smith, president of the University of Toronto, shortly after his installation as chancellor of the university. Dr. Beatty, who retired last year as dean of the faculty of arts, succeeds Mr. Massey. The ceremony was held recently in conjunction with the 100th anniversary of the founding of University College, now part of the University of Toronto.

PAPER DOLL—Pretty Mary Stewart, of Miami, Fla., played downdy to a day recently while collecting National Nerveless Week. Planking her wares on a street corner, Mary wore a patchwork costume of newspaper pasted on satin.

TRACING HIS ROUTE—Prime Minister Louis St. Laurent, planning a visit to the Far East, took advantage of a huge globe in the library of the College Militaire Royal de St. Jean, at St. John, Que., to trace his itinerary. The Prime Minister points out to Mrs. Brooke Claxton, right, Minister of National Defense, where he will touch down in India, Ceylon, the Philippines and Japan before dropping in on Canadian troops in Korea. Later, he will go to Australia.

CANADIAN COLBALT BOMB REACHES ITALY—Onlookers gather around a truck in front of a Lombard Hospital at Borgo Val Sugana in Italy's Trent Province as the vehicle delivers a radioactive Colbalt Bomb to the institution's cancer clinic. The bomb, constructed in Canada, was shipped first to Quebec for delivery by truck to the hospital. A similar Canadian-made unit has been delivered to the United Kingdom.

Legs For Football

The closer you analyze the game of football, the more you realize the tremendous part that football players' legs have in the successful playing of the game. For example: the stronger legs he has, the better the football player can block, charge or tackle because the legs that give him mass overpowers the power they need to be successfully used. Then too, it is the football player's legs that give him speed or enable him to dodge when he is carrying the ball. When treading or swimming a forward pass is in the player's legs that enable him to jump high in the air to catch a pass or to take away from the charging opponent who is trying to stop the pass from getting the ball away. You, there is not a player in football, the success of which does not depend mainly on leg power, leg drive or leg agility and co-ordination.

To take a hand and work right through until next season trying to develop your legs to the highest possible degree. If you do, you will see a tremendous improvement in your play when you come out on the gridiron next year. You can do a wonderful job on your legs if you use the leg exercises and drills that are given in "The Sports Clinic Year Program" Bulletin. So make sure you

get a copy and get down to work. Remember, by working on your football muscles and on your football skills, during the off-season you can make sure you will be playing better football next season!

Is Diet Important in Football Events?

There is a popular idea that diet is an important in activities such as swimming or basketball. Though there is a certain amount of truth in this theory is not valid. When an athlete pays attention to his diet and eats properly he gets the following dividends:

- (1) Better general health.
- (2) More energy and endurance.
- (3) Avoids indigestion, constipation and lack of pep.

Of course, if he is in an activity that requires a great deal of strength and speed, he should eat properly to get the following dividends:

- (1) More energy and endurance.
- (2) Avoids indigestion, constipation and lack of pep.

Should Everyone Try To Become A Champion?

Everyone, if they are to be as happy as possible and as sound as possible as possible, should evaluate their potentials and do everything they can to develop their talents and capabilities according to their desires and responsibilities. The old saying, "Anything worth doing is worth doing right"

Christmas Parcels To U.K. By "Care"

In honor of Christmas year CARE, a non-profit organization formed to help needy people all over the world, has prepared a special list of parcels to be delivered in Britain. These parcels are duty free and budget-priced and could not possibly be duplicated for the price by individual purchase.

With Christmas now less far away and the need for extra parcels still great in Britain, CARE members will be well advised to look into the selection of parcels and decide what parcels they are going to send. Early decision will avoid disappointment. There is usually a rush on the last minute that cannot possibly be duplicated by CARE members delivery.

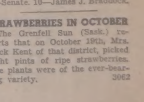

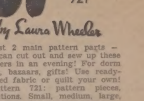

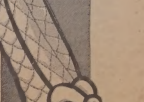

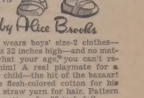

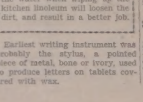

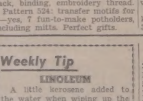

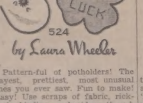

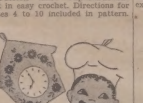

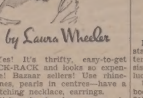

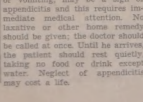

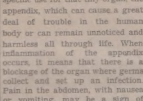

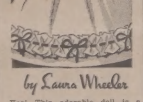

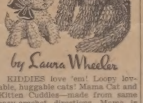

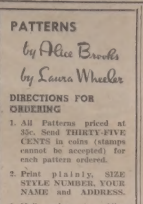

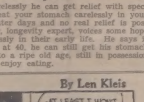

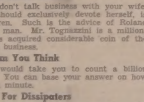

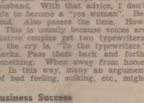

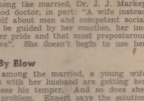

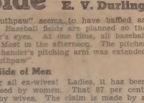

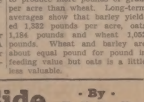

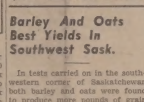

Among the goods available are parcels a whole ham or fatty dressed turkey may be sent. There are also parcels, and mixed food parcels or one containing nothing but much-needed food. There is a budget food parcel, one of baby food, and two glass parcels, one containing household items and the other a 100 per cent wool blanket to bolster a child.

By writing "Care," Mr. Neil MacNeil, Director for Canada, 73 Albert Street, Ottawa, for parcels in placing orders for parcels and parcels to be sent to the U.K. after a 100 per cent wool blanket to bolster a child.

NOTICE

In the Estate of JOSEPH COBBINS, late of the Village of Delia, in the Province of Alberta, retired farmer, deceased.

NOTICE is HEREBY GIVEN that all persons having claims upon the Estate of the above named JOSEPH COBBINS, who died on the 15th day of May, A.D. 1953, are required to file with the undersigned Court Officer, 115-2nd Avenue N.E., Calgary, Alberta, by the 1st day of December, A.D. 1953, a full statement duly verified of their claims and of any securities held by them, and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, and will regard only to the claims of which notice has been so filed or which have been brought to his attention.

DATED this 7th day of October, A.D. 1953.

W. R. SANDERBROCK,

Administrator of the Administration, Delia, Alberta.

be loaded in an unnecessary invitation to future grief.

The case with which a trigger can be tripped accidentally is astonishing. To drag a loaded gun by the barrel through a wire fence or out of a boat or car might seem innocent enough—but scores of men have died unnecessarily because they tried it. And not a few men have shot their best friends through the practice of carrying a loaded weapon over the shoulder.

Any endeavor to control by license the sale and use of rifles and shot-guns would be hopeless from the start. But the shocking list of casualties marked up every year from the careless use of sporting guns shows how the instrument of an agreeable passion can be abused. How to prevent an agreeable hunter from shooting his best friend in mistake for a deer, or how to persuade people that a loaded rifle is not a toy, and how to stop hunters from handling guns so though they were pieces of wood, we have not the least idea.

Cancer

QUESTION: Can cancer be cured by natural operation?

ANSWER: Yes. While surgery can almost always be done in advanced cancer, in such cases it is done to make the patient more comfortable and not to bring about a cure.

public menace once seated be-

hind the wheel of an automobile.

There are others who just can't

be trusted with a gun.

Take the case, as a shining

example, reported from the

province of Quebec.

A group of young people were

preparing a "trick" camera shot

—a young woman was pointing

a rifle at her boy friend's head

while a second youth was taking

the picture. All went splendidly

—save that the rifle was loaded,

it accidentally discharged, the

bullet struck the subject of the

picture in the head, and 24 hours

later he died.

It was an idiotic piece of busi-

ness. To play games with a rifle

without the absolute assurance

that the weapon is not loaded, is

to invite tragedy. Even to play

games with a rifle known not to
